PROLOGUE

"Our life is like some vast lake that is slowly filling with the stream of our years. As the waters creep surely upward, the landmarks of the past are one by one submerged. But there shall always be memory to lift its head above the tide until the lake is overflowing."

Upon graduation our memories are of these landmarks, which are discovered all through our four years of high school. Now they will begin to submerge, and we will encounter more complex frontiers. It will be our responsibility, with the use of the skills we have learned at Stoughton High, to overcome any barriers that impede our progress.

In years to come, when our vast lake is overflowing with knowledge, we will turn to the pages of our Stotonian, and our high school memories will come floating to the surface.

DEATH-HONOR

Faculty and student body members of Stoughton High School were deeply saddened by the tragic loss of Peter R. Gerardi, one of their most respected teachers, on August 12, 1962. In remembrance of this courageous man, admired and loved by all, the senior class dedicates the 1963 Stotonian.

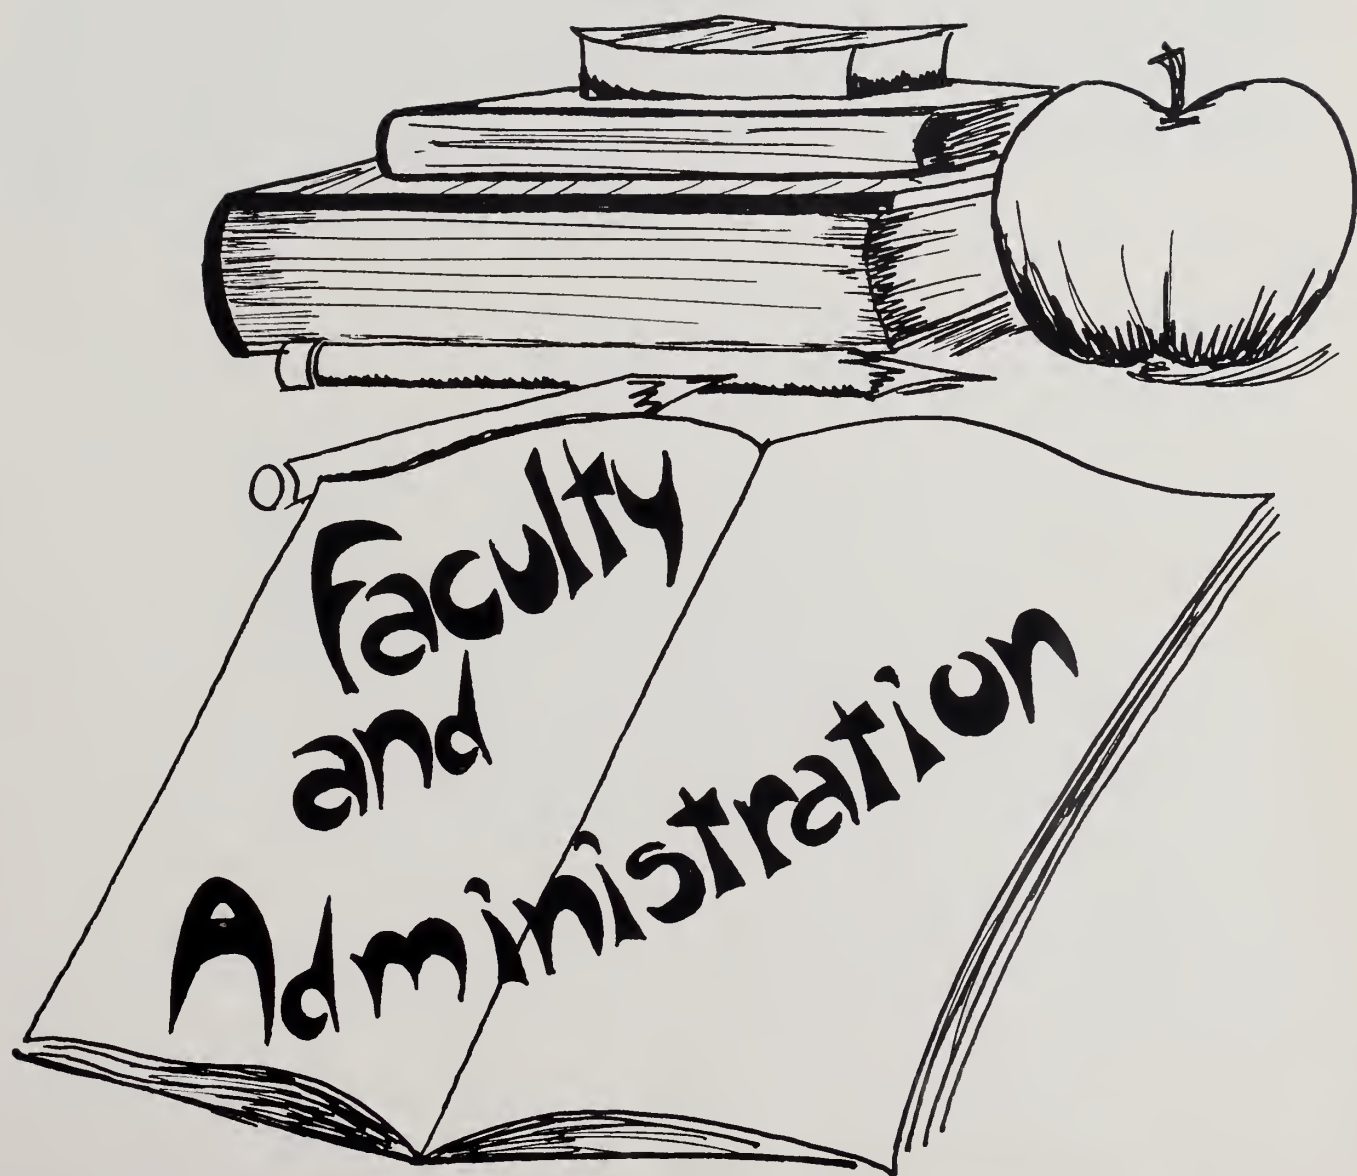

Despite personal sacrifice, Mr. Gerardi faithfully served his students for eight years; and, as teacher-coach, he won the admiration of everyone by devoting his talents for their guidance and welfare.

Mr. Gerardi has set a fine example for the students of Stoughton High School and his memory will continue to influence their lives.

OUR CLASS ADVISOR

We, the Class of 1963, wish to express our most deep appreciation and gratitude to our class advisor, Mr. Chester Peirce, for the time and effort put forth by him so that our last years of high school could be more profitable and rewarding.

SCHOOL COMMITTEE

Seated: Edmund Daly, Margaret Whitehead, Robert Buckley, Dr. Appleton Woodward, Chairman, David Benjamin, Joseph Gibbons, Superintendent.

TO THE CLASS OF "63"

"And what are wars but politics
transformed from chronic, to acute, and bloody?"

Robert Frost

You are graduating into the world of the Thermo-nuclear Era, a complete new phase in a manner of living which can be either profitable or destructive. It will return a profit that will insure peace upon our earth or a loss that may end in our complete annihilation. Do not let yourselves become pawns in the faction that spreads confusion, hysteria and untruths; but continue your education, the highest privilege that is granted to you in a democracy to seek out facts, reasons, and truths. A hundred years ago, Emerson told his generation that "this time, like all times is a very good one, if we but know what to do with it."

Appleton C. Woodward, M.D.
Chairman, Stoughton School Committee

SUPERINTENDENT

JOSEPH H. GIBBONS

To the Class of 1963:

We all know very vividly that we live in a dangerous age. It is, however, a great age, like the days of our frontier, since it is rich in opportunity. Professional or vocational opportunities are opening in every direction, but all of them depend heavily on knowledge. You must be willing to accept the challenge by pursuing knowledge and growing in the power to use it. If you pursue the right learning, then you will grow in wisdom.

As future citizens you must see others as individuals of dignity and worth. I hope that you have developed an understanding and a deep appreciation of equality and a firm sense of righteousness.

I congratulate you on your attainments, and I extend my best wishes to all of you in the years ahead. Go forth and assume your proper place in our democratic society for you are fully equal to the demands that life will put upon you.

Sincerely,

A handwritten signature in cursive script that reads "Joseph H. Gibbons". The signature is written in dark ink and is positioned above the printed name.

PRINCIPAL

THOMAS J. WHALEN

TO THE CLASS OF 1963:

Graduation for your class has special significance for me since your entrance into high school and my appointment as principal were contemporaneous. Your individual and collective contributions to the school have enriched and rewarded my administrative duties. For this selfless service to the school, I express my personal gratitude, and, in so doing, reflect the sentiments of the faculty and underclassmen.

Your graduation also has significance for your parents and your country. In many instances your parents have made personal sacrifices to insure your education—your goals, ambitions, and achievements should be of a character to have warranted these sacrifices. Your country needs your talents to the degree that this nation will continue to be the bulwark of world freedom.

In closing, please accept my best wishes for your future happiness and success.

ARTHUR L. PENARDI

TO THE CLASS OF 1963

President Kennedy states—"The strength of our democracy is no greater than the collective well-being of our people. The level of physical fitness of every American citizen must be our constant concern."

Never before has physical fitness been more important than it is today. The advances in technology and the complexities of our present day society, demand the development of our intellects to their maximum potential. It also requires the physical stamina to maintain this pace.

Alert minds within strong bodies are a necessary requisite to create the will to resist the tyrannical forces threatening free men in the world today.

As individuals I urge you to continue to participate in healthful recreational activities throughout your lifetime, while you maintain your demonstrated academic interests and activities.

I extend my best wishes to each of you for your future success and happiness.

Arthur L. Penardi
Assistant Principal

DIRECTOR OF GUIDANCE

ALBERT C. WILLIAMSON

TO THE CLASS OF 1963

Recent scientific, economic and diplomatic developments have been rapid to a degree perhaps never before matched in world history.

What are the implications of these developments with reference to the Class of 1963?

Initially some of these changes appear to make life more interesting, more comfortable and more bountiful in material things. However, other developments seem to make life more complex, and in some instances, even precarious.

Perhaps, most important, these changes present a challenge to the new graduate for immediate and sustained growth and development which often means continuation of education, either formal or informal.

Education may well prove to be the salvation of our nation and of our democratic way of life.

As graduates of Stoughton High School you may enter this new world, well prepared to accept this challenge in the manner best suited to your particular talents.

Best wishes to each and every one of you in this most important effort to meet your responsibilities as a graduate of Stoughton High School and as an American citizen.

VARSITY FOOTBALL

Under the able coaching of Robert Flanagan and his assistants, James Rhodes and Frank Jardin, the Black Knights experienced their best season in three years. The team faced strong opposition, yet posted a record of 4 wins, 4 losses, and 1 tie.

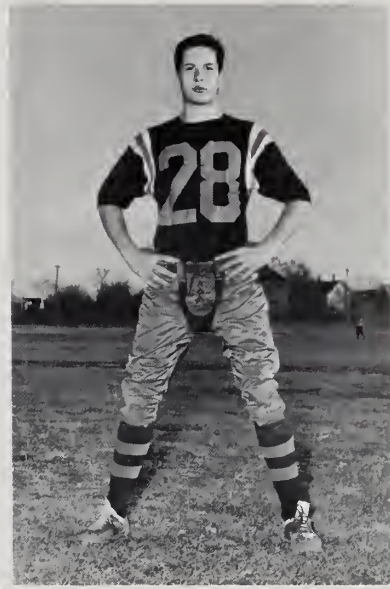

The Black Knights opened the season by tying a strong Rogers High of Newport, Rhode Island. Stoughton then played Oliver Ames of North Easton, fighting hard, but losing 16-6. Stoughton came back with a victory by defeating Hingham 12-0. Yet despite a fine performance, it lost the next game to Reading High

School. Stoughton was victorious in its first encounter with Cardinal Spellman of Brockton, but lost to a strong North Quincy team in its next game. The Black Knights then routed Cambridge Latin by the impressive score of 36-0, yet lost to Newton South, one of its toughest foes.

The last game of the season was against traditional Thanksgiving Day rival Canton, whom the Black Knights defeated 14-6. This was a perfect ending for the seniors who played well all season.

CAPTAIN MARK

Stoughton High's basketball team was faced with a strong schedule in this year's Hockamock League. But under the expert coaching of Mr. Passalaqua, who is new at Stoughton High this year, the Black Knights shot forward to the end of the season with a record of nine losses and seven wins. For the first time in seven years, S.H.S. defeated Easton, one of the strongest teams in the League. Leading the team were seniors Stretch Fallon, Jay Twomey, Robert Chapman, Mark Hutchins, captain, and junior Fred Yaitanes, who no doubt will lead next year's team in winning many more games. The seniors wish the Black Knights the best of luck in the future, with the assurance that the team will soon reach the top.

This year more boys than ever are expected to try out for the track team. Headed by co-captains Robert Chapman and David Reilly, the team can look forward to a successful season. Bright prospects among the seniors who are expected to lead Stoughton to many victories include Bob Chapman, Dave Reilly, Paul Giannakoulis, Walter Parshley, and Jay Twomey.

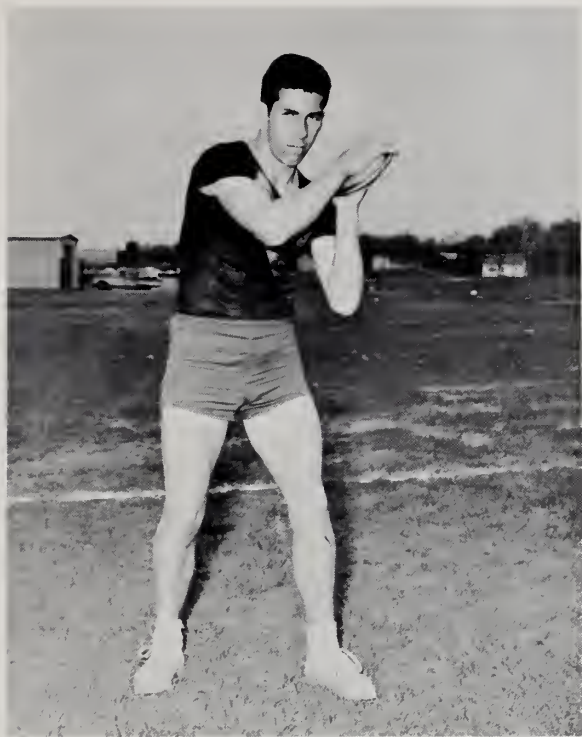

Major events in the track schedule are the meets with Randolph and Canton, which will probably provide the roughest competition. But hopes are high that Stoughton will retain the Hockamock title against all challengers.

Each year, five of our most worthy S.H.S. students are chosen to attend Boys' or Girls' State. Here they are educated in the duties, rights, and responsibilities of American citizens.

At Boys' and Girls' State, the members elect the appropriate officials for their own city, county, and state governments. These citizens learn the duties of the different public offices, their functions, and their limitations. They also make and enforce ordinances, conduct elections, and establish their own police force and courts, through which they administer justice.

Attendance at Boys' or Girls' State is both an honor and a privilege and provides an interesting and most profitable experience.

Activities for the day included a tour of the high school, luncheon at the Capeway Manor, a tour of the Town Hall and a business establishment in Stoughton, and a period of recreation at Westgate Lanes in Brockton. The highlight of the program was a dinner in the high school cafeteria with town meeting officials and an actual visit to the town meeting.

The Student Exchange Program is known as the Massachusetts Department of Education's "Citizenship in Action" Program.

CAREER GIRLS' CLUB

The Career Girls' Club, under the direction of Miss Elizabeth Doherty, is composed of thirty senior girls in the commercial course. Its purpose is to create interest in secretarial and clerical work and to prepare girls more fully for entrance into the business world. In addition to publishing a club newspaper, the members attend lectures by representatives of large firms and visit business offices, where they learn about the types of jobs available to high school graduates.

BIOLOGY CLUB

This year the Biology Club, under the direction of Mr. Chester Peirce, has approximately thirty members. The object of the club is to further interest in the various fields of biology. The students become acquainted with new advances and methods in biology through field trips, lectures and films.

FOREIGN CORRESPONDENCE CLUB

Under the excellent supervision of Miss Rita Lavallee, the Foreign Correspondence Club is enjoying a most successful year at Stoughton High School. The members correspond with students of the French and Spanish-speaking countries, consequently creating a better understanding of their customs, language, and ways of life.

LIBRARY ASSISTANTS

Under the direction of Miss Mabel R. Simmons, the Library Assistants assist in the library during the study periods and after school. The cataloging and issuing of books and magazines, and helping students find needed material are just a few of the many tasks performed by these students.

TOASTMASTERS CLUB

The Toastmasters Club, headed by Mr. Vogel, meets every other Thursday. The limited membership enables the club to fulfill its aim of improving the public speaking of the members by actual participation.

AUDIO-VISUAL-AIDS CLUB

The members of the Audio-Visual Aids Club, under the direction of Mr. Francis A. McGeough, are trained to operate the school's audio-visual equipment. The club has an important role in serving the aims of a total educational program. Audio-visual materials can promote the most effective kind of learning.

FUTURE TEACHERS CLUB

The Future Teachers Club, under the supervision of Mr. Frank X. O'Regan was organized to acquaint the students with the different levels of education. The club also provided students with an opportunity to speak before small groups, have panel discussions on educational topics, and to listen to outside speakers from the teaching profession.

CHEFS' CLUB

The Chefs' Club, under the supervision of Miss Judith Flaherty, has been re-established this year at S.H.S. The purpose is to teach boys the fundamentals of cooking. The response has been so great that the future of the club is definitely assured.

FUTURE NURSES CLUB

The Future Nurses Club, directed by Mrs. Mary Vogel, is designed to prepare students for a career in nursing. The girls assist in the school clinic and become acquainted with the life, work, and studies of a nurse.

THE RIFLE CLUB

The Rifle Club, under the excellent direction of Mr. Robert Lynch, meets weekly at the Stoughton Fish and Game Association. The club meets in limited competition with towns in the surrounding area. The members can qualify for awards from the National Rifle Association, of which Stoughton is a member.

THE MONITORS

Under the leadership of Mr. Antonellis, the student monitors are once again patrolling the halls of S.H.S. They are governed by a group of officers and an executive board, and do much to keep order in the halls, the stairways, and the cafeteria.

PHYSICS CLUB

The purpose of the Physics Club, under the supervision of Mr. Samuel F. Gregory, is to extend knowledge of laboratory techniques through research on specific projects, such as computers, wave mechanics, and gyroscopic effects.

HAM RADIO CLUB

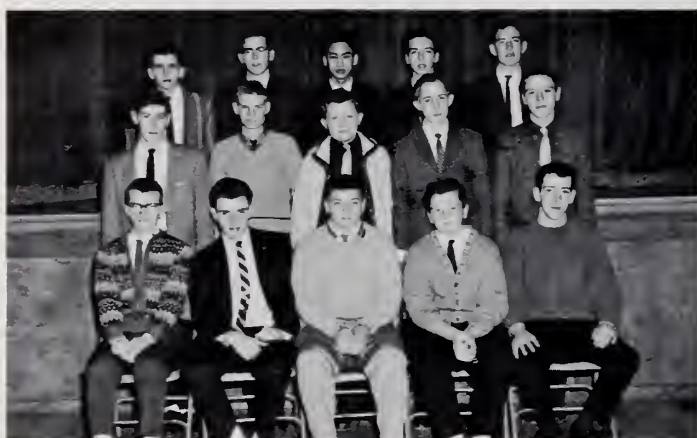

The Ham Radio Club, under the direction of Mr. Peter N. Keliher, aims to teach prospective members the fundamentals of the theory and code of amateur radio technicians. With the help of several pieces of equipment and a separate "shack," the members prepare for their ham radio license examination.

GUIDANCE ASSISTANTS

For three consecutive years, students have given up their study periods in order to assist our guidance counselors. They have now become an important part in the efficient running of the Guidance Department. Filling out appointment slips, keeping catalogs and brochures in order, and assisting students whenever possible are a few of the various tasks performed by the students.

CHESS CLUB

The Chess Club, under the direction of Mr. Peter Willis, is designed to instruct students in the game of chess. The members gain experience by actually playing and by familiarizing themselves with the intricate techniques of the game.

MATH COMPETITION CLUB

The Math Competition Club is a new organization in many schools this year. Under the direction of Mr. Reno Nastasi, Stoughton's chapter is comprised of the top math students in the school. By competing in combined meets with eight other schools, these students become more efficient in both the fundamentals of mathematics, and the art of taking tests.

MATH CLUB

The Math Club of Stoughton High School has once again been under the expert direction of Mr. Frederick Arata. This year the members have gained much by belonging to this relatively new club, which now shows great evidence of success on the S.H.S. activity schedule.

KNITTING CLUB

Under the expert direction of Mr. Alice Griffin, the Knitting Club has once again stood out among the S.H.S. activities. The Club members are taught proper knitting procedures and the uses of different textured yarns.

GIRLS' WOODWORKING CLUB

The Girls' Woodworking Club, under the supervision of Mr. Patrick Nessar, once again appears on the Stoughton High Activity Schedule. Being one of the oldest clubs at S.H.S., it gives girls a chance to work with both the woodworking and ceramic facilities made available to them.

THE PHOTOGRAPHY CLUB

The Photography Club, advised by Mr. Francis Maoli, is a relatively new club at Stoughton High this year. The members make use of a great deal of photographic equipment and learn many photographic techniques. This club shows evidence of becoming one of the most popular organizations at S.H.S. in the years to come.

INDUSTRIAL RESEARCH CLUB

For the first time at Stoughton High an Industrial Research Club has been organized under the direction of Mr. James Holland. The purpose of the club is to assist students working on industrial research projects, encourage individual research, and stimulate self-improvement.

Added to the activities at S.H.S. this year is the Girls' Physical Education Club, under the expert supervision of Miss Jewett. These girls are able to practice gymnastic skills and learn proper safety techniques. Because of the great interest the girls have shown, this Physical Education Club is certain to return next year.

The chorus has appeared this year to once again join the S.H.S. activities. Under the capable direction of Mr. Irving Schein, this group is able to participate in and add much to the school assemblies at Stoughton High School.
